

Clinical Services

Student Health is prepping for the January **International Student Health Screening Clinic**. We are expecting to screen approximately 350 students!

Lab/X-Ray

Rita Stumpf attended the **Central Iowa Lab Manager's meeting** in Des Moines for up-to-date information on laboratory testing and reimbursement trends.

Physical Therapy and Sports Medicine

PT's intern, **Patrick Alt**, did a presentation titled: Trunk Stabilization vs. General Exercise: Physical Therapy Management of Low Back Pain in the Outpatient Rehab Setting

Pharmacy

Pharmacy has **over 130 years** of combined pharmacy experience with the staff!

Communications

The website now features an **interactive presentation request form** for those on campus desiring to bring in a speaker from Student Health.

Quality Improvement

Bridget Konz, QI Officer attended the **AAHC Achieving Accreditation Conference** December 4-5 in Las Vegas, NV where she met with partners in college health to plan for successful accreditation in 2016.

Administration

Sara Parris, Assistant Director, has developed a **termination checklist** for departing employees. This will serve as a reminder for the manager and will also automatically send emails to the proper staff with follow-up actions to take (shutting off NextGen, turning off building access, etc).

Health Information Management

For the month of November, HIM transcription staff typed **10,265 lines**.

specializing in
students: Request for Presentations

Student Health recently created a **new online form** for those wishing to have Student Health present to their organizations or classes. The form can be easily found under the contact tab on our website.

The form was created to monitor presentation requests and track presentations given. By using **CyPoint**, we can communicate with those requesting presentations about their needs and who's presenting. On the back end, we can see when we gave the presentation, to whom, and how many were in attendance.

"I believe the online form allows us to provide better service to campus."

— *Samantha Boyd, Communications Specialist*

Samantha Boyd, communications specialist; **Tammy Paris-Walker**, RN; and **Dominic Noll**, systems analyst, worked together on the project to make the process easier and more efficient for students and faculty/staff to use.

"I believe the online form allows us to provide better service to campus," said Samantha Boyd, communications specialist. "In addition, it helps me track our public relations efforts."

Presentations are given by Tammy as part of her new student programs coordinator role, but other times providers or managers will also assist. They are usually on topics such as the services we offer, healthy lifestyle habits, or mental health issues.

"Sharing the services we provide with students is an important part of keeping them healthy," said Tammy Paris-Walker, RN. "This form allows us to better accept requests and to know how many students we are reaching each year."
